# TWIN SCREWS PET STRAPPING BAND EXTRUSION LINE

## COMPANY PROFILE

HAO YU Precision Machinery Industry Co., Ltd. is a special and professional manufacturer of PP and HDPE woven bag machinery and whole plant equipment. Since its establishment 1980, HAO YU has been dedicated to the research and development of high performance machinery. Our dedication to continuous research and development is the reason for the excellence of HAO YU machines. Our objective is to enhance our present machinery and develop new models that improve the efficiency, product quality and profitability for our customers.

From the beginning, HAO YU has focused its energy on the development of advanced woven bag making machines, incorporating the latest ideas in technology. HAO YU machines have been supplied to over 85 countries and have received the full satisfaction of our customers. This level of dependability is achieved through outstanding engineering efficiency, continuous research & development, and rigorous quality control, combined with our strong commitment to customer services. In addition, our engineering ability has earned us "The 3rd R.O.C. Golden Dragon Award" and "Taipei Plast 2008 - Best Design Award". However we never stop improving our technology. The future and continuous success of HAO YU depends upon further servicing our customers with high quality machines that fully meet their requirements.

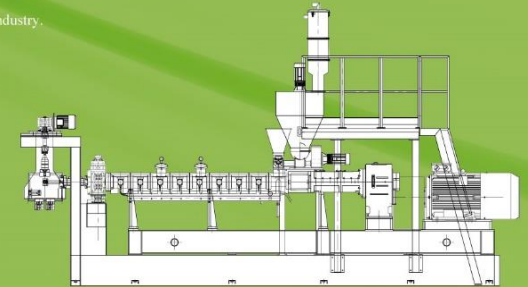

## TWIN SCREWS PET STRAPPING BAND EXTRUSION LINE

### Main Features:

- Advance extruder design for PET strapping band industry.
- High quality & stability finish products.
- User friendly operation.
- Dual vacuum venting design for discharging humidity remained with PET flake.
- Incorporated with authentically European, melt pump component and controlling system.
- Europe made Backflush filter changer & winder upon special request.

### Input Material: PET clean flake

NOTE	Must be clean & suitable for multifilament production
	IV value 0.7 above
	Water contain : ≤0.6%
	Flake size : ≤7 mm

### Technical Specification

Twin Screws PET Strapping Band Extrusion Line Series			Model		
Item	Description	Unit	HY7-PET53B	HY7-PET63B	HY7-PET75B
Plastic Materials			PET Flake & PET/PP Granule		
Material Width		mm	9 - 25	9 - 32	9 - 32
Working Material		Pcs	1-2	1-4	2-4
Extruder	Screw	Pcs	2		
	Screw diameter	mm	53	63	75
	Melt Extrusion Output	Kg/hr	150	250	350
	Screen Filter Changer	Type	Dual Pistons 4 Cavities Type	Dual Pistons 4 Cavities Type	Dual Pistons 4 Cavities Type
	Plastic Melt Pump		Equipped		
	Dehumidification Design		Dual Vacuum Venting System		
Dual Mandrel Heavy Duty Winder	Quantity	Unit	1-2	2-4	2-4
Wind-up Paper Core	Interchangeable adapter	mm	φ200mm & φ400mm
